Note: When connecting the SFP-ER or SFP-ZR, we recommend using an attenuator to prevent damage caused by excessive optical power. Once an exotic, high end technology, 10 GbE is now mainstream and widely deployed both in the data center and in the campus environment. 10 gigabit Ethernet, however, has had a lengthy process of development to get to where it is now, and with many older 10GbE platforms and modules still in use.
