

90-degree bends in the cable tray inward and outward directions

Overview

How to 90 degree bend cable tray?

For a 90-degree bend, ensure the tray's internal radius meets the cable's minimum bend requirement. If fabricating, mark the side rail at intervals based on the calculated arc length, cut V-notches, and bend the tray until the gap. Students trading aid on how best to put an internal 90 degrees bend in steel cable tray.
