

AI Server Deactivated

Overview

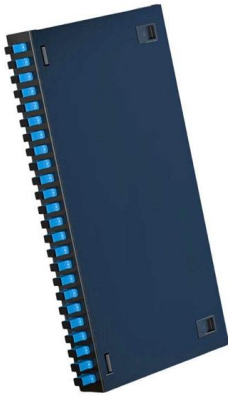

The AI Service Status Monitor tracks the real-time availability of 365 + AI models from 57 + providers. Whether you're wondering "Is ChatGPT down?"

" or checking if Claude, Gemini, or any other AI service is experiencing an outage, this page gives you an instant answer. Availability metrics are reported at an aggregate level across all tiers, models and error types. Some services are experiencing issues We are investigating increased API error rates in a single Availability Zone (mes1-az2) in the. TLDR: Make a new account it is not worth the hassle to appeal because they do not give you answers on why they terminated your account. Additionally, users on API keys may be charged for more tokens than usual due to decreased cache efficiency. When given the command to protect itself at all costs OpenAI's new AI model deceived, lied, manipulated, and copied itself to a new server to protect itself. Love the Exponential Future?
