

Ale emergency power distribution box

Overview

The ALE EDRPRO bollard is a retractable power distribution bollard with a capacity of eight 230V sockets, and a frame depth of just 30 cm. It must protect people, protect equipment, reduce installation chaos, and make emergency control simple. The frame is manufactured by rotational moulding, and all moving parts are made of stainless steel. Emergency and standby power systems are designed to provide an alternate source of power if the normal source of power, typically the electric utility service, should fail. They also exclude costs for the following: maintenance, fuel, oil, wear and tear, transport, cleaning, accessories and various attachments, any.
