

British manufacturer of desktop fiber optic spiral tubes

Overview

Wells remains a family run company whose prime activity is the manufacture and distribution of spiral tubes, fabrications and associate fittings. Puffin Solutions supplies & installs fibre cable for businesses & data centres all over the world. The company provides ultrafast fiber optic internet through its Project Lightning network, serving both residential and business customers. There are several generic design types shown on this page but the permutations of the different components are almost limitless. We strive to put customers at the heart of everything we do, to ensure that each enquiry results in the precise products and services that customer. With centres of excellence the Netherlands and France, and five production sites around the world, we are a world-leading manufacturer of optical fibre – and we're working at the very cutting edge of speed and reliability.
