

# **CE Certification Requirements for Distribution Boxes**

## Overview

---

For metal distribution boxes, CE certification means that the product has been tested and evaluated in accordance with relevant EU directives and meets the basic requirements of the EU for safety, health, environmental protection and consumer protection. While every product varies, here's a typical roadmap:  
Phase 1: Preparation (4-6 weeks) Getting your technical documentation draft ready, selecting test samples, choosing your notified body. Many European directives stipulate that a CE mark has to be applied to the products in question.
