

# CE Certification for Optical Modules

## Overview

---

CE marking for fibre optic products, declaration of conformity for optical fibre, and product certification are mandatory for all fibre optic components distributed in the EU, provided they fall under one of the applicable EU directives — particularly the Low Voltage Directive. Such EU directives and regulations apply to a wide range of products, including electronics, toys, helmets, sunglasses, and medical devices. There are four of them: TÜV Nord in Hanover, TÜV SÜD in Munich, TÜV Rheinland in Cologne and TÜV Austria in Vienna.

## CE Certification for Optical Modules

---

### RoHS compliant products: WEEE & CE markings

CE certification, WEEE marking, RoHS conformity: Electronic devices and components must be properly registered and certified to allow for their

### CE Marking Guide For Selling Products In The EU
