

Cable Bridge Madagascar

Overview

- [Suspension bridges designed, built or rebuilt by Gaston Leinekugel Le Cocq from 1924 to 1950]. In Antananarivo, a densely packed capital city prone to chronic traffic congestion, a major transformation is underway. This is a list of bridges and viaducts in Madagascar, including those for pedestrians and vehicular traffic. Ever wanted to repeat Indiana Jones' bridge stunt in the Temple of Doom?

The stone forests of Tsingy with their breathtaking rope bridges, that hang above knife-sharp limestone pinnacles, will give you that feeling. Led by the Colas-POMA consortium, Madagascar's first cable transport project aims to decongest the city, offering a fast, sustainable, and inclusive solution. The government of the Republic of Madagascar has been granted a funding by the International Development Association (IDA) for the *Projet d'Urgence pour la Préservation des Infrastructures et la Réduction de*. Spanning 125 meters across the skies of Langkawi, SkyBridge isn't just a bridge—it's a world-class engineering wonder! As one of the longest curved suspension bridges on the planet, it offers more than just breathtaking views—it's a true architectural feat.
