

Cannot connect to the internet via a secondary router from a telecom provider

Overview

In this video, we'll guide you through easy steps to troubleshoot and fix the issue. Watch now to get your network running smoothly!The first network is a Wi-Fi network that is also connected to the internet via a Wi-Fi router/DSL modem. Issue that I have at the moment is, Router 1 has direct connection with a cable modem, and have no issue accessing internet at the moment from any devices which connected to Router1 (include switch, AP, tablets, laptops, and etc), yet, from Router2, I am able to ping any devices which connected to. (I disabled DHCP on 2nd, forced and IP to the 2nd out of the DHCP pool of the 1st etc.
