

Case Study of an Fiber Optic Communication Company

Overview

Capgemini and Deutsche Telekom use agile development methods to implement a new, highly scalable full-service platform for the planning, marketing, installation, and activation of fiber broadband connections in a very short space of time. With an unusually diverse selection of more than 60 Ethernet and fiber optic communications products, TC Communications offers a wide variety of networking solutions. Solutions apply to all types of interfaces and networks including Industrial, Enterprise, Campus, LAN, MAN and WAN. All these applications run on a robust 120 Km Optical Fibre backbone and an MPLS network with an advanced CCC comprising a highly sophisticated data center network. Pro Optix provides a portfolio of leading-edge fiber optical solutions and products that enable a lot of industry applications. To meet this challenge, Deutsche Telekom partnered with Capgemini to modernize its OSS.
