

Communication Tower North Korea

Overview

The N Seoul Tower (also known as the YTN Tower, Namsan Tower and Seoul Tower) stands on Mount Namsan and is the highest point in the city at 236 meters. Namsan Seoul Tower (Korean: 남산 서울 타워), aka the YTN Seoul Tower, Namsan Tower, Seoul Tower or N Seoul Tower, is a communication and observation tower located on the summit of Namsan in central Seoul, South Korea. The 236-metre-tall (774 ft) structure was the nation's first tower servicing multiple. The tower itself is actually a functioning radio wave tower which is still broadcasting signals for Korean media.
