

# Connecting the fiber optic junction box to the switch

## Overview

---

Set your fiber optic-to-Ethernet converter box in a location near your Ethernet switch and plug in its power adapter. You can't install the fiber optic cable directly as the slot reserved for fiber cable module. As we speak I just have optic fibre (Community Fibre) connected to my Huawei modem / Linksys Velop which will be connected to a new POE switch (need to identify the best model to be compatible with my optic fibre extension project). It serves as a central point for organizing and distributing optical fibers, ensuring efficient connectivity.
