

# **Cost of 12-core single-mode fiber optic splicing**

## Overview

---

Basic: 800 ft of single-mode fiber routing through a paved residential area, minor restoration, no conduit beyond surface mount, standard connectors. Fiber optic splicing costs vary widely depending on project size, location, fiber type, and site conditions. Idk if that's usual but the ranges are : 1-24 splices 25-72 73-144 144+ Guys that are paid similar to this scale, how much should I be getting paid per range?

Thanks I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an. There are two primary methods of splicing fiber optic cables: fusion splicing and mechanical splicing. Traveling will only be charged if the site is 50km or more from our office in the East Rand. (Boksburg) Accommodation & SNT will only come in affect if the team must stay over to complete a site.
