

Does Tuvalu distribute fiber optic cables

Overview

Tuvalu's connection is delivered through branching unit integration into the Central Pacific Cable (CPC) submarine network, providing permanent high-capacity international fiber connectivity to the country. Tuvalu has successfully received and activated its first-ever international subsea cable. Google's Product and Service Innovation Global Submarine Cable system director Shirshendu Bhattacharya addressed concerns about the reliability of a submarine fiber optic cable connecting Tuvalu while also acknowledging the threat of rising sea levels and emphasising proactive measures to mitigate. The Tuvalu Telecommunications Corporation (TTC), a state-owned enterprise, provides fixed line telephone communications to subscribers on each island and mobile phone services on Funafuti, Vaitupu and Nukulaelae. TTC is a distributor of Fiji Television service (Sky Pacific satellite television).
