

Does it cost money to activate a fiber optic router

Overview

Cost Estimate: Generally between \$8 and \$12 per linear foot, or about \$40,000 to \$60,000 per mile. GFiber offers two installation paths to connect your home to our fiber-optic network: professional installation by a technician or a simple self-setup for eligible addresses. Both options include the necessary equipment, such as a Fiber Jack and an advanced Wi-Fi router, at no additional cost. The price of setting up fiber optic internet can change based on various factors, like what kind of installation you need, equipment costs, labor, and local regulations.

Does it cost money to activate a fiber optic router
