

Does whole-house fiber optic internet mean we don't need a router

Overview

While FTTH uses an Optical Network Terminal (ONT) instead of a standard modem, you'll need a compatible router for optimal Wi-Fi coverage. Fiber internet doesn't need a modem because it uses a fundamentally different technology from cable or DSL. "Fiber to the home" describes the use of fiber optic cable to deliver broadband internet from a central location directly to private residences.

Does whole-house fiber optic internet mean we don't need a router

Will fibre broadband be obsolete by 2030
