

Fiber Optic Cable Line Construction and Installation Costs

Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. These fibers are thin strands, often as small as a human hair, that transmit data as pulses of light. With prices ranging from \$1 to over \$ 50 per linear foot, depending on the installation method. Fiber routes often run through public rights-of-way (such as along roads or sidewalks) or utility easements—designated corridors where infrastructure like electricity, water, and communication lines can be installed. When fiber optic construction crosses private property, private property easements.
