

Fiber Optic Combination Router Login

Overview

In most cases, you just need to enter the router's IP address into a web browser and then log in with the default admin username and password. Logging in to your router, gateway, or mesh system is now easier than ever, but why would you?

Perhaps you need to change the Wi-Fi password, manage parental controls, or improve your wired gaming. Since the FRITZ!Box establishes and controls its own internet connection, all FRITZ!Box functions (such as internet telephony, firewall) are also available without restriction. If you want to change your Wi-Fi network name & password, you'll need to access your router.
