

Fiber optic SC connector module

Overview

The SC connector by DIAMOND SA is an IEC-compliant fiber optic solution offering high precision, low insertion loss, and push-pull operation. Most SFP fiber optic modules use LC connectors, while SC connectors are mainly found in legacy networks and MPO/MTP connectors are used for high-density cabling rather than directly on standard SFP modules. This connector landscape reflects how modern SFP deployments prioritize port density and. This post will focus on LC SFP vs SC SFP and hopes to provide comprehensive insights and comparisons for end users. LC vs SC SFP: What is it?
