

Flame-retardant optical cable junction box

Overview

These boxes feature robust construction using fire-retardant materials such as steel, cast iron, or specially formulated composites that resist melting and deformation under high heat conditions. The FireBox portfolio from OBO connects safety-relevant electrical cables in a fireproof manner. Introducing TAKACHI's EV charger box, the WG-EV series Designed for demanding outdoor applications, this IP68-rated plastic enclosure delivers reliable protection against water and dust ingress. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx.
