

G304 optical module

Overview

The FLIR G304 is an innovative Optical Gas Imaging (OGI) camera used to detect possible hydrofluorocarbon, refrigerant, and other industrial gas leaks. Designed with your safety and efficiency in mind, this advanced cooled 320 × 240 (76,800 pixels) resolution camera can detect dangerous and environmentally harmful refrigerant gases from safe distances. Reduce inspection time by scanning large areas without interfering or shutting down. Refrigerant gases are potentially toxic, environmentally harmful, and they are heavily regulated. , Battery charger, Power supply, Hand strap, Neck strap, Lens cap, Lens cap strap, Memory card, HDMI-HDMI cable, USB cable, Screwdriver TX20, Knob screw (optional screw for the rear cover), Printed documentation, Hard transport case.
