Greek Fiber Optic Patch Cord Specifications

Overview

Supports Gigabit Ethernet, 10 Gigabit Ethernet, and high-speed Fiber Channel. Fiber optic patch cables are ideal for supporting high speed telecommunication network fiber applications. They are manufactured and tested in compliance with TIA 604 (FOCIS), IEC 61754 and YD/T industry standards. These fiber optic cables have been built to exceed industry standards tested for insertion loss and reflectance on within UL certified OFNR (Riser) rated jacket with Kevlar yarn, and are factory terminated. Both ends are terminated with a high performance hybrid or single type connector comprising of a SC, ST, FC, LC, MTRJ, E2000 conector in simplex and duplex.
