

Green terminal block in distribution box

Overview

Many people find when inspecting the distribution box that the originally golden-yellow copper terminal block has been covered with a layer of emerald green "coat". This green substance is actually verdigris, scientifically known as basic copper carbonate. Check our stock now! Our PUSH IN terminal blocks with wire side entry are ideal for use in compact and confined installation spaces. Whether control cabinet or distribution box, the time and space-saving lateral PUSH IN connection system increases productivity in distribution cabinet building.
