

High-efficiency UPS system for quantum communication 200kW

Overview

Highly efficient, modular, high-density 200kW (400/480V) 3-phase UPS that is scalable up to 500kW. It delivers top performance for medium, large, and edge data centers, as well as critical infrastructure in commercial and industrial applications. At the heart of the forum, Kehua made a historic announcement: the global launch of the MR9. 0, the world's first 200kW high-density UPS module, certified by China's Tai'er Certification Center with the industry's first 1. A space-saving, scalable and flexible device that's as easy to deploy as it is to manage, it's the perfect three-phase white or grey space solution for today's data center. Engineered with a three level IGBT based Inverter technology, it delivers unparalleled efficiency in a compact design.
