

How long is the warranty period for optical cable laying projects

Overview

Performance Assurance: A guarantee that the installed system will meet or exceed TIA/EIA-568 and ISO/IEC 11801 standards for 25 years.

Product Reliability: Coverage the cabling components (cable, jacks, patch panels) against material and workmanship defects. The Certification Plus System Warranty is a 15, 20 or 25-year standards-based, performance warranty covering Panduit-branded copper and fiber connectivity hardware, and Panduit-branded cable or approved manufacturer's cable, used in structured cabling systems that meet program requirements. The INFRALAN ® 25 years system warranty offers the necessary investment protection. In the case of a warranty claim (proof by measurement reports and further information), the components complained of will be checked and the defects rectified subsequently.
