

# **How much does it cost to assemble a household electrical distribution box**

## Overview

---

The price for a new electrical box typically combines panel cost, labor, and permitting. In practice, the total project range often falls between about \$1,500 and \$6,500 for a standard residential panel upgrade, with higher costs for larger or multi-branch systems. Costing upwards of £450 for a new fuse box to as little as £1 for a standard electrical box, it's important to know which type of electrical box suits your needs. Understanding these variables will help in budgeting accurately for your electrical project.
