

How much does outdoor cable tray cost per meter

Overview

The average cable tray price per meter ranges from \$2 to \$25, depending on material, type, size, and surface finish. Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial settings. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation. Manufactured from 4mm thick heavy gauge steel wire and finished with a hot dipped galvanised (HDG) coating, this tray is engineered for external use. That number matters, but it's rarely the one that decides whether a project stays within budget.
