

How to allocate quotas for distribution boxes

Overview

You can use the Exchange admin center (EAC) or the Exchange Management Shell to customize the mailbox storage quotas for specific mailboxes. Storage quotas let you control the size of mailboxes and manage the growth of mailbox databases. Quota Arrangement is a strategic approach to ensure fair and efficient vendor allocation, helping teams meet objectives without overburdening any single unit. Whether you're managing sales teams, production lines, or project workloads, a well-structured quota system can enhance productivity and. I would need to split the stock into multiple stocks for different smaller repositories, in which I would like to allocate quotas. The system calculates the quota rating using the following formula: Quota rating =.
