

How to connect a cable management hub

Overview

Connect an Ethernet cable to your PC and Hub to create an Ethernet LAN network. USB wires are shaped like snakes and can be used to connect your laptop and phone charger. This modular unit can meet all technology needs while complying with B55733 BSI standards. This appendix describes how to install the ASR 5500 Cable Management System (CMS) and route network cables to ports on the Management Input/Output (MIO/UMIO) cards. A fan hub can significantly improve your system's cooling efficiency by allowing you to manage multiple case fans from one location.
