

How to disconnect the AOC optical cable

Overview

To properly remove the optical cable: Locate the port > Stabilize the device > Gently grasp & pull the plug (not the cable) straight out > Do the same with the other end > Cover both connectors with plastic tips. This may seem obvious, but it's important to ensure that you are removing the correct cable to avoid any damage or confusion. Before you disconnect an active optical cable (AOC) from a device, ensure that you have taken the necessary precautions for safe handling of laser (see Laser and LED Safety Guidelines and.
