

# **How to set up a router for Austrian fiber optic internet access**

## Overview

---

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. To be able to use the Internet via fiber optics with Easybell, you will need a fully developed fiber optic connection (FTTH) with a fiber optic ID and a fiber optic modem or router. In this article, we explain the individual components in detail and show you what happens next. This comprehensive guide combines industry standards with field-tested practices to ensure you achieve a rock-solid.
