

# **How to turn on the fiber optic box at your home**

## Overview

---

If your ISP doesn't require a technician to set up your connection, these are the steps to self-install fiber internet: Locate your fiber network terminal. In this article we'll break down how fiber internet is installed - from the network fiber drop outside your house to the in-home setup with your router and gateway - and what you should expect at each stage. Aerial Service Drop: A cable coming from a pole to your house, connected at a small box called an MST. Network Interface Device (NID): A box where the internet service meets your home's wiring.
