

How to use the H3C optical-to-electric module

How to use the H3C optical-to-electric module

Support

H3C iOptic 3.0 dedicated transceiver module, similar to the hybrid copper-fiber transceiver module, is used to connect a hybrid copper-fiber cable and an optical host for long-distance power and data

Checking the Optical Module Type

The selected optical modules must be supported by the optical interfaces. Check whether the optical module used on the switch is certified by Huawei switches. For the Huawei-certified optical modules,

How to read optical module information on H3C switches

Next, let us use Mduletek QSFP-40G-LR4 module to access the H3C S6820 switch, to introduce how to read the information of the accessed optical

Support

Insert PoE optical transceiver modules only into the photoelectric hybrid ports (PSFP or PSFP+ ports). To connect the photoelectric hybrid ports, use hybrid copper-fiber cables with fiber PoE patch cords.

H3C All-Optical Network Technology White Paper-6W100

By attaching an EPS scanner module to the iOptic Ethernet aggregation switch, you can view the network operations and endpoint access conditions from the information center and implement

Support

Overview A transceiver module converts electrical data signals to laser light, which is then transmitted over an optical fiber. It can transmit optical signals over long distance with low signal loss. H3C

Support

Optical modules transmit signals over optical fibers. Optical transmission features low loss and is fit for long distance transmission. H3C devices support optical module models of different specifications.

How To Turn Off Alarms For Third-Party Modules On H3C Switches

By default, a large number of alarm messages will be generated if the module is verified as non-H3C original. H3C provides CLI commands to suppress these optical module alarm

Switches-H3C

H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic

How to view the optical module DDM information on

View the optical module information on Huawei switches and H3C switches through the command

Can original HUAWEI optical module be used on H3C

The optical module is the electronic component of photoelectric conversion. The principle is that the transmitter of the module converts electrical signal to optical
