

Huawei 5731 switch optical port

Overview

High-performance Huawei S5731-S48T4X switch with 48 Gigabit ports, 4 SFP+ slots, 336Gbps capacity, and robust surge protection. The CloudEngine S5731-H is a series of next generation intelligent switches that provide GE/10 GE electrical downlink ports and four 10 GE uplink ports, with one extended slot. In V200R023C00 and later versions, ports numbered GE1 to GE8 and GE25 to GE44 can be configured to work at 2.

Huawei 5731 switch optical port

Huawei S5731-L4 Series Switch: Quick Model Comparison

Huawei CloudEngine S5731-L4 is a series of Gigabit remote unit switches featuring full GE access ports and GE SFP uplink ports. Some models also provide additional gigabit optical or

S5731-S and S5731S-S Service Port Stacking Support

S5731-S and S5731S-S series switches of all versions can set up stacks in service port stacking mode using dedicated stack cables. The number of stacked switches is recommended to be 2 to 9. In

CloudEngine S5731-L Series Switches , Huawei Enterprise

CloudEngine S5731-L Series Remote Unit Switches Huawei CloudEngine S5731-L is a series of Gigabit Ethernet (GE) remote unit switches that include all-GE downlink ports and GE Small Form-factor

S5731-H48HB4XZ (02354QXB)

In V200R023C00 and later versions, 10GE SFP+ hybrid optical-electrical ports can be configured to work at 2.5 Gbit/s using the port mode 2.5ge command. A 10GE SFP+ Ethernet optical port supports

S5731-S32ST4X (98011813)

The switch can use a single power module or two power modules for 1+1 power redundancy. Pluggable AC and DC power modules can be used together in the same switch.

Huawei CloudEngine S5731-L Series Remote Unit

The document provides information about Huawei CloudEngine S5731-L series remote unit switches, including their product overview, models and appearances,

CloudEngine S5731-S Series Switches , Huawei Enterprise

CloudEngine S5731-S Series Switches The CloudEngine S5731-S series offers a range of standard gigabit access switches, with all-GE electrical/optical ports and

Huawei CloudEngine S5731-L Series Remote Unit

The remote units provide all-gigabit Ethernet ports and optical uplink ports, support simplified architecture, fast access, ultra-low power consumption, flexible

CloudEngine S5731-L Series Switches , Huawei Enterprise

CloudEngine S5731-L Series Remote Unit Switches Huawei CloudEngine S5731-L is a series of Gigabit Ethernet (GE) remote unit switches that include all-GE

CloudEngine S5731-H Series Hybrid Optical-Electrical Switches

CloudEngine S5731-H series hybrid optical-electrical switches are next-generation intelligent switches that provide GE/10GE hybrid optical-electrical downlink ports and four10GE uplink

CloudEngine S5731-S Series Switches Datasheet

The CloudEngine S5731-S series switches were developed based on next-generation high-performing hardware and the Huawei Versatile Routing Platform (VRP). The CloudEngine S5731-S supports

CloudEngine S5731-S Series Switches-R21C01

One CloudEngine S5731-S switch can connect to multiple aggregation switches through multiple links, implementing backup of uplinks and significantly improving reliability of access devices.

CloudEngine S5731-H Series Hybrid Optical-Electrical Switches

The CloudEngine S5731-H series switches are the next-generation intelligent hybrid optical-electrical fixed switches developed by Huawei. The CloudEngine S5731-H builds on Huawei's unified Versatile

Huawei S5700 Series Switches Best Price

Huawei S5700 series Ethernet switches provides a large switching capacity, high reliability (double power slots and hardware Ethernet OAM), and high-density GE ports to accommodate 10 Gbit/s

CloudEngine S5731-H Series Switches , Huawei Enterprise

CloudEngine S5731-H series hybrid optical-electrical switches provide GE/10 GE electrical downlink ports and four 10 GE uplink ports, with one extended slot.

S5731-L8P2HT-RUA

Powered by a central switch using the second-generation hybrid cable (occupies the uplink hybrid optical-electrical port, which is used for both PoE power input and data transmission)
Powered by a

48 Gigabit Optical Port Huawei Network Switches S5731-S48T4X

High-performance Huawei S5731-S48T4X switch with 48 Gigabit ports, 4 SFP+ slots, 336Gbps capacity, and robust surge protection. Ideal for enterprise networks.

Optisch-elektrische Hybrid-Switches

Die optisch-elektrischen Switches der Serie CloudEngine S5731-H bieten elektrische GE/10 GE-Downlink-Ports und vier 10 GE-Uplink-Ports mit einem erweiterten Steckplatz.
