

Huawei Fiber Optic Router 10 Gigabit Secondary Terminal

Overview

Answer: The Huawei OptiXstar HG8145X6 10 G-PON Terminal is ideal for gigabit fiber internet users because it supports up to 10 Gbps downstream and 2. Huawei OptiXstar S600E is a miniature GPON SFP ONU device that can be inserted into the SFP port of a camera or AP device to provide GPON access for the device to meet the requirements of video backhaul or wireless backhaul. 5 Gbps upstream, features dual-band Wi-Fi 6, and provides stable, high-speed performance for homes on fiber plans, outperforming standard GPON ONTs in speed and device handling. When upgrading to 10 Gbps fiber broadband, you might be curious about the type of Optical Network Terminal (ONT) that SIMBA provides for setup.
