

Huawei Gigabit Core Switch

Overview

The Huawei S5720H series represents a powerful line of gigabit switches designed for enterprise campus core and distribution networks. Based on Huawei's VRP V200 operating system, it blends high forwarding performance, PoE+ capability, rich port options, and advanced. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. By leveraging Huawei's unified software platform, CloudEngine S5755-H series creates a.
