## Overview

---

Huawei S6320-SI series switches are Huawei-developed next-generation multigigabit 10GE fixed switches. The S6320-SI can provide high-speed wireless access, and access for 10GE servers in data centers or function as access/aggregation switches on a campus network. CloudEngine S6730-H Series 10 GE Switches deliver 10 GE downlink and 100 GE uplink connectivity for enterprise campuses, carriers, higher education institutions, and governments, integrating native Wireless Local Area Network (WLAN) Access Controller (AC) capabilities, to support up to 1024 WLAN. The Huawei 10G RJ45 Switch isn't just another piece of hardware—it's the backbone of modern networking.
