

# **Huawei Switch Fiber Optic Indicator Light**

## Overview

---

Huawei ONT LED indicators are the light-emitting diode (LED) status lights on Huawei Optical Network Terminals (ONTs), such as the EchoLife EG8145V5 and other GPON models deployed in fiber-optic broadband access networks. Major causes of the interface physically down event include hardware and software failures. Single-mode/multimode fibers and single-mode/multimode optical modules cannot be mixed.
