

# **Huijue Communication Optical Cable Distribution Box**

## Overview

---

Huijue Communication Equipment specializes in producing ODN product series, including jumperless optical cross-connect cabinets, optical fiber distribution boxes of various core counts, optical cable joint closures, termination boxes, and other optical. Optical fiber distribution frame (ODF) is used for terminating and distributing central office trunk optical cables in optical fiber communication systems, and can easily realize the connection, distribution and scheduling of optical fiber lines. Since its establishment in 2002, it has been dedicated to providing hardware, software, and technical services for wired and wireless transmission infrastructure network construction to domestic operators such as. Note: Specifications are subject to change without prior notice for product improvement. , Ltd (HJ Network for short) is the leading manufacturer and solution provider for telecom and communication products. The headquarter of HJ Network including the R&D center, technical center, prototype dept and sales is. is a special manufacturing enterprise, which produces all types of optoelectronics and related products, including outdoor cabinet.
