

Industrial-grade ring network managed switches

Industrial-grade ring network managed switches

Managed Redundant Ethernet Switch

The TC3340 Redundant Gigabit Ethernet Switch Substation is a rugged, cost-effective networking solution for both industrial and commercial fiber networks. It

home > product> solutions > industrial ethernet switch

Cyber-Ring self-healing Ethernet technology is a proprietary developed by ICP DAS that can be used to help establish industrial-grade Ethernet with high reliability

TSN-6325-8T4S4X

Innovative Industrial TSN Ethernet Switch
Guaranty Delivery of Time-Sensitive Data
PLANET TSN-6325-8T4S4X is a brand-new Industrial-grade Layer 3 Time-Sensitive Networking (TSN) Managed

Industrial Ring Networks , ERPS , Antaira Technologies

That's why Antaira industrial managed switches come preconfigured for ERPS and other ring redundancy protocols to help reduce the risk of network outages. Overall, ERPS Rings solutions are

Industrial Managed Redundant Ethernet Switches, Rugged Ethernet

Managed Switches Advantech EKI managed switches provide simplicity, flexibility and security for industrial networks. Advantech "X-Ring" technology offers the fastest self-healing Ethernet

Industrial Ring Networks , ERPS , Antaira Technologies

The Ethernet Ring Protection Switching (ERPS) protocol is a powerful technology and service that can be used on industrial switches to ensure high network availability and prevent network downtime.

Managed Industrial Ethernet Switches

Patton's FiberPlex and Connect-IT managed industrial grade network switch products are designed for use in such demanding environments as oil rigs,

DIN Rail Switch , Industrial Ethernet

Switches , Perle

Layer 2 Managed Switches Perle DIN Rail
Managed Switches have enterprise-grade features that include PROFINET and Modbus TCP Protocol Support, MRP IEC 62439-2 Ring protocol for <10ms

Managed Layer 2 Industrial Ethernet Switches , Westermo

Strengthen your network with Westermo managed layer 2 industrial Ethernet switches. Support for redundant rings, cybersecurity & PoE. Browse the range.

TSN-6325-8T4S4X

It incorporates advanced ITU-T G.8032 ERPS (Ethernet Ring Protection Switching) technology, Spanning Tree Protocol (802.1s MSTP), and redundant power input system into customer's industrial

N-Tron

N-Tron switches enable industrial-grade networking, often used where demands for quality and ruggedness are high.

Industrial Gigabit Managed Switch

Redundant Power Input -- The network switch has dual power input design, can offer redundant mechanisms for critical applications that need always-on connections. You can also choose DC 5V

SCALANCE

SCALANCE network components form the basis of communication networks in manufacturing and process automation. Specially designed for use in industrial

Industrial Ethernet Switch

ORing offers a rugged industrial Ethernet switch portfolio, ranging from unmanaged PoE models to advanced Layer 2/3 managed switches with integrated OT cybersecurity.

Managed Industrial Ethernet Switches

Switches are active network components that support the structuring of an industrial communication network into electrical or optical line, star and ring structures.

Layer 3 Managed Switches

Moxa's Layer 3 managed switches feature industrial-grade reliability, multicast availability, and security enhancements based on the IEC 62443 standard. We

Industrial Network Switches

Our ethernet network switches are built with industrial grade components, tested in-house & certified for reliable operation in harsh conditions. Shop now!

8GE+12SFP L2+ Industrial Fast Ring Managed Network

L2+ Industrial Fast Ring Managed Network Switches act as network aggregation for industrial applications to get easy management and stable system operation.

Managed Ethernet Switches

Advantech's managed Ethernet switches allow users to expand their industrial network quickly and efficiently, while their rugged industrial-grade design assures

8GE+2SFP L2+ Industrial Fast Ring

Managed Network

L2+ Industrial Fast Ring Managed Network Switches act as network aggregation for industrial applications and offer easy management and stable operation for

L2/L3 Managed Ethernet Switch

From Layer 2 and Layer 3 managed switches to 10G, PROFINET, and cybersecurity-focused models, our portfolio supports a wide variety of industrial networking requirements for factory automation,

IMS-6325-5

Industrial-grade Modular Switch for Versatile and Demanding Networks PLANET IMS-6325-5 L3 DIN-rail Industrial Modular Ethernet Switch is a cutting-edge

AMG570 Industrial Managed PoE Ethernet Network Switch

The AMG570 Series of Industrial Managed switches support 100Mb, 1Gb or 10Gb Ethernet, with port counts from 4-52, and with optional 30W, 60 or 90W PoE

Industrial Switches (ISW) , Extreme Networks

Extreme Industrial Switches are an excellent choice for industrial environments, including intelligent transportation systems, utilities, and smart cities. Full redundant ring technology creates fault-

Industrial Ethernet Switches , WAGO

WAGO's switch portfolio provides scalable Ethernet network infrastructure with excellent electrical and mechanical performance. These rugged devices are
