

Installation price of cable tray tee

Overview

Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations exist. Steel is the most widely used cable tray material due to its balance of cost-effectiveness and strength. Each type offers unique structural, environmental, and cost advantages, making it suitable for specific applications in commercial, industrial, and residential settings. In addition, its design does not contribute to potential safety problems should be done in the design phase.
