

Installation price of mobile cable trays

Overview

Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations. They are strong, durable, and widely available, making them ideal for general-purpose electrical installations in residential, commercial, and industrial settings. The cable trays, rather than piping, may save 40 to 60 percent of the entire budget. During my time working on construction sites, I have observed the amount of time that goes to waste in an attempt to insert a heavy piece of wire through a pipe with a bend in it. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. Joe quickly realized the difference between spending 15 EUR/meter on rigid conduit versus 9 EUR/meter on cable trays would mean thousands of euros saved on the project – but only if installation complexity didn't add hidden costs.
