

# Kuwait electrical distribution box certification and testing

## Overview

---

The Kuwait Standards and Testing Department (KSTD) oversees certification of electrical equipment. To access international markets, your electrical and electronic devices must comply with strict product safety requirements. The Kuwait Conformity Assurance Scheme (KUCAS) contains a set of procedures carried out by PAI to verify the conformity of all "Regulated Products" (domestic or imported) to Kuwait's Technical Regulations and approved Standards. Engineers and others are therefore requested to contact the Ministry of Electricity and Water, Consumers Electrical. The Government of Kuwait, per its notification to the WTO Committee on Technical Barriers to Trade, eliminated pre-shipment standards inspection under the International Conformity Certification Program (ICCP) and is currently working with the GCC Standards Organization (Riyadh) to develop a.
