

Linku Optical Power Meter

Overview

Optical Power Meter is used to test optical power, loss, continuity and faults on all types of fiber optic systems. Working with Linku's LS-3 series OLS, it can automatically recognize the wavelength to be tested to reduce the. User Guide WARNING • Do not look at the laser 's direct ray, reflected ray from a mirror, or indirect ray without the proper protective eyewear. • Use the Correct Power Supply and AC Adapter • When not in use for a long time, please take out the battery from the instrument to avoid the damage. A Pass/Fail judgement based on preset thresholds, data storage capabilities, a VFL module (optional) and system. The LP-3P is designed for the FTTX PON (APON, BPON, EPON and GPON) network installation and maintenance.
