

# **MTP adapter module box**

## Overview

---

The fiber patch box is suitable for 1 cassette/adaptor plate for pre-terminated fiber and MTP/MPO cabling. EDGE8® MTP® adaptor panels are pass-through panels that provide a simple interface to mate MTP connectors. This occurs when connecting MTP trunks to MTP extended trunks or MTP trunks to harnesses or MTP patch cords. These MTP multi-fibre connectors provide data centres with the fastest and simplest.
