

Malta Overseas Warehouse Fiber Bidirectional 40G

Overview

This QSFP+ 40G SR BD module is hot-pluggable for easy integration and has a dual-wavelength VCSEL optical interface that supports bidirectional communication at 840-868nm and 882-918nm. FS 40G QSFP+ optical transceiver module solutions offer a full range of QSFP+ modules from 150m to 80km reach, and used for high-density switching, routing and data center applications. Supporting 150m transmission over OM4 multimode fiber with 850/900nm wavelengths, this BiDi module provides 2 dB link budget at speeds up to 41. It primarily enables high-bandwidth 40G optical links over 12-fiber parallel fiber terminated with MPO/MTP multifiber female connectors.
