

Manufacturer s Edge Data Center Wall-Mounted

Overview

Schneider Electric has launched a tiny Edge micro data center, which can be screwed to the wall and managed remotely with the EcoStruxure service. As the name implies, the C-series 6U Wall Mount EcoStruxure Micro Data Center has a capacity of six rack units, and can be mounted on a wall. Learn more about the enclosure with the information below! Legrand offers intelligent, integrated edge computing solutions that simplify your remote IT infrastructure and management needs by offering flexibility and scalability through a depth of physical infrastructure, power and network connectivity products. Edge deployments present three main types of problems, distinct from those encountered during data center construction. Wall-mounted cabinets provide networking/server capacity when floor-space isn't an option in a variety of indoor and outdoor environments, designed with both installation and daily-use in mind.
