

Monaco Fiber Optic Switch Configuration Table

Overview

The Switch Configuration Example and Commands table provides the basic steps and commands in a checklist format to quickly configure a switch for fabric and possible FICON operation. Detailed information is in the "MAAP-X Local Operating Console IOM Manual," P/N 001-578-00. 44This document is intended to serve as a guide for architecting and deploying fiber optic networks in a customer environment. The information, figures, tables, specifications, part numbers, and schematics contained in this manual are subject to change without notice. Coherent makes no warranty or representation, either expressed or implied, related to this document.
