

Mozambique Micro-Module Data Center Project

Overview

Vodafone subsidiary Vodacom Mozambique is investing \$25m in constructing a data center in Matola, Mozambique, according to a report from Opais. The project will be carried out in three phases with the first phase set to be complete in July 2024. This report is part of a series of market briefs developed by Xalam Analytics at the behest of Digital Investment Facility (DIF) under the Data Governance in Africa Initiative, on the data center market opportunity in sub-Saharan Africa ("SSA"). Raxio Mozambique is the country's first carrier-neutral Tier III data centre facility and will be a critical feature of the country's evolving digital infrastructure, helping accelerate the country's demand for digital tools and services across industries. Approval of the Data Center Regulation - DLA Piper Africa in Mozambique - SAL & Caldeira Advogados, Lda.
