

National Standard 12-Core Single-Mode Armored Optical Cable

Overview

These cables consist of 12 to 216 fibers organized into 12-fiber ribbons inside a central tube. Dielectric strength members provide tensile strength while a specially formulated flame-retardant outer jacket allows the design to meet the requirements of the NFPA 262 flame test. Corning ribbon plenum cables are designed for use in plenum, riser and general purpose environments for intrabuilding backbone installations and for high-fiber-count data centers. All trademarks identified by ® or TM are registered trademarks, respectively, of CommScope. Imm (main cord) Material Stainless Steel Color Silvery White UL94 V-0 (*Burning stops within 10 seconds on a vertical specimen, no drips of flaming particles. Specifications are correct at time of printing and subject to change or alteration. HES 12 Core, Single Tube, Steel Armored, Single Jacketed Fiber Optic Cable SM 9/125µ Single Mode HES Brand Fiber Optic Cables HES brand fiber optic cables are designed with high performance and reliability, especially focusing on single mode fiber technology to meet long-distance transmission. 12 Core Single mode 9/125, Loose Tube jelly filled Cables, Unitube, Single Sheath - Outdoor Armored Cable - ECCS-Corrugated, complying to 9/125 ITU G.
